Efren Gabriel Toledo

My Beliefs/Values:

I consider myself a Christian and believe that God is responsible for everything that I have and everything that I am.

My Interests:

Some of my favorite interests or hobbies include watching movies under the category of "so bad it's good." Some examples include Sharknado or Kung Pow. I also like to play guitar if I have any spare time left over from watching movies.

My Career:

Ever since I have gotten into computer science, I have always wanted to get into the security field, whether it may be for the government or a company. A specific company that I want to work for right now is Lockheed Martin.

My Hopes for This Class:

I hope that this class challenges me to become a better programmer and developer. I also hope that I have the skills necessary to manage my time and prepare for big projects that this course may entail.
